

Registration Permission-to-add Codes: Winter 2026 C S 393 Section 001

Instructions to Faculty:

These codes allow students to register for courses that require special authorization. Each set of codes generated is unique and is generated only once for this class section. You may generate as many codes as you wish. You may print out and distribute these codes in class, email to students or distribute any way you wish. The student will use this code to enroll in, audit or waitlist the course through the registration system. These codes will expire the last day of the add/drop deadline. The two audit codes below will allow the student to audit the course and may only be used to register as of the first day of class. All waitlists expire four calendar days into a semester or term.
